from the 60's and 70's*

*Crossing the Nullarbor on my GT750 Suzuki in 1975. By this stage the GT was painted black and was fitted with a German made three into one exhaust system, purchased in Europe in 1974.*

*My 1966 T20 Suzuki 250cc, had been raced prior to me owning it. It was a great bike, but needed constant attention to tuning etc. I had this bike from about 1968 to late 1971, in Sydney.*

*My brand new GT750 Suzuki just collected that day from Hazel & Moore M/C shop in Sydney, December 1971. I traded in my T20 Suzuki for this bike, which I kept for nine years. In that time I took it to Europe 1973/74 and rode around Australia in 1975.*

*My 1942 WLA 750cc Harley Davidson, which I had purchased in pieces for \$150.00, rebuilt it, toured Tasmania in 1969 and sold it for about \$700.00. Oh, if I still had it now!!*

*Barry Sheene and Phil Reid on Practice Saturday at the Malory Park post TT race meeting in central England, June 1974.*
